

**B.S.S.SAI SIDDHARTH.A**  
**Batch of 2023**

I am incredibly honored and thrilled to have been selected for the B.Tech program in Computer Science and Engineering at the Indian Institute of Technology (IIT, Tirupati). This milestone reflects years of hard work, along with the solid foundation I received at **Akshara School**.

At school, I not only focused on academics but also actively participated in co-curricular activities, which helped me develop leadership, teamwork, and time management skills. The faculty at **Akshara School** played a vital role in encouraging curiosity, critical thinking, and problem-solving skills—qualities that are essential in the field of computer science.

In particular, my experience with the school's Mathematics and Science departments helped me build a strong academic base. The encouragement to participate in Olympiads, Science fairs, and coding competitions helped me discover my passion for computing early on. Beyond academics, the school instilled values of discipline, perseverance, and a love for learning—traits that proved essential during my preparation for the Joint Entrance Examination (JEE).

Being selected for IIT's prestigious CSE program is a dream come true. I am excited to begin this new chapter of my life, where I will have the opportunity to learn from world-class faculty, collaborate with brilliant peers, and contribute to innovations in technology. I remain deeply grateful to my school, teachers, and family for their unwavering support and belief in me.
