Looking back on my journey from Kindergarten to 10<sup>th</sup> grade at Akshara School, I'm filled with immense gratitude. The school provided me with far more than just a solid education; it was a true community. The teachers, who were dedicated mentors, saw our potential and helped us grow into confident individuals. The strong foundation they provided is the cornerstone for my achievements and success. The lessons, memories, and lifelong friendships that began in those hallways are something I will always cherish. It's an honour to be an alumnus, and I wish the school continued success
